

New 32 mt road model

The 32 and 34 m. Ferris Wheels. are considered the ideal wheels, a jewel for your park with an excellent ride capacity and available with Tüv Munich Approval. A beautiful illuminated logo in the heart of the wheel and a central writing are always possible. Rotation is created by the friction of the tyre and the rim by using 4 motors, the structure is galvanized and has double columns, gondola frames are galvanized too and fences are inox.
